

Burn Advocates Network is an all-volunteer, not-for-profit, foundation which supports burn survivors in their quest for rehabilitation and reintegration into the mainstream.

On October 3, 2007 we consulted Liberty Event Management (LEM) to help us put on our first benefit for burned American veterans from the Iraq war on Veterans Day at Liberty State Park. They helped us navigate through a maze of permits and logistical problems and throw an event adjacent the Statue of Liberty only 6 weeks later.

Ken Tesler was a great planner spending more time than I ever would have imagined helping us deliver a big event on a tight budget. Robert Howell took control of every aspect of the production from stage banners to the sound system and VIP tent menu for Leslie West, our featured performer. Despite the tight deadlines Liberty Event management delivered a first rate event. The image of our gathering made it to the NY Times and helped establish Burn Advocates reputation and credibility, and strengthen our fund raising capabilities.

I look forward to working with them again.

Samuel L. Davis, Esq.
